

## ***Elementerre Consulting***

# ***Elementerre Consulting***

***Sustainable development is a growing priority among all players in the economy. The scarcity and high cost of energy inevitably lead these players to review their operating procedures and to adopt more efficient and sustainable practices.***

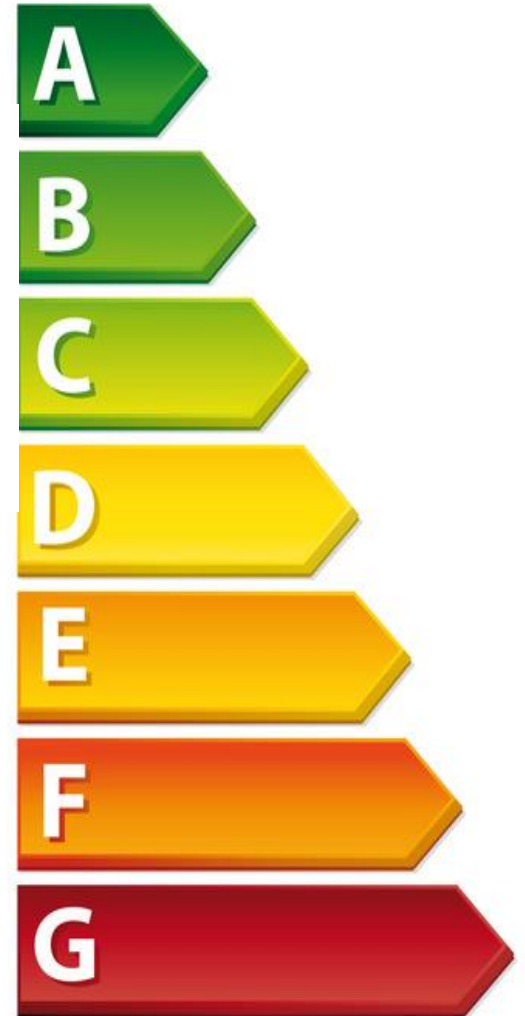

***Elementerre Consulting conducts audits on sustainable development to stimulate the economic growth of your structure.***

***We operate in 3 steps:***

- Diagnosis***
- The implementation of the strategy***
- The support and monitoring***

***According to the challenges of each structure, Elementerre conducts audits that enable you to assess your environmental and economic performance by using a studies repository .***

***Elementerre Consulting assists you in the labeling process.***

# ***Our Approach***

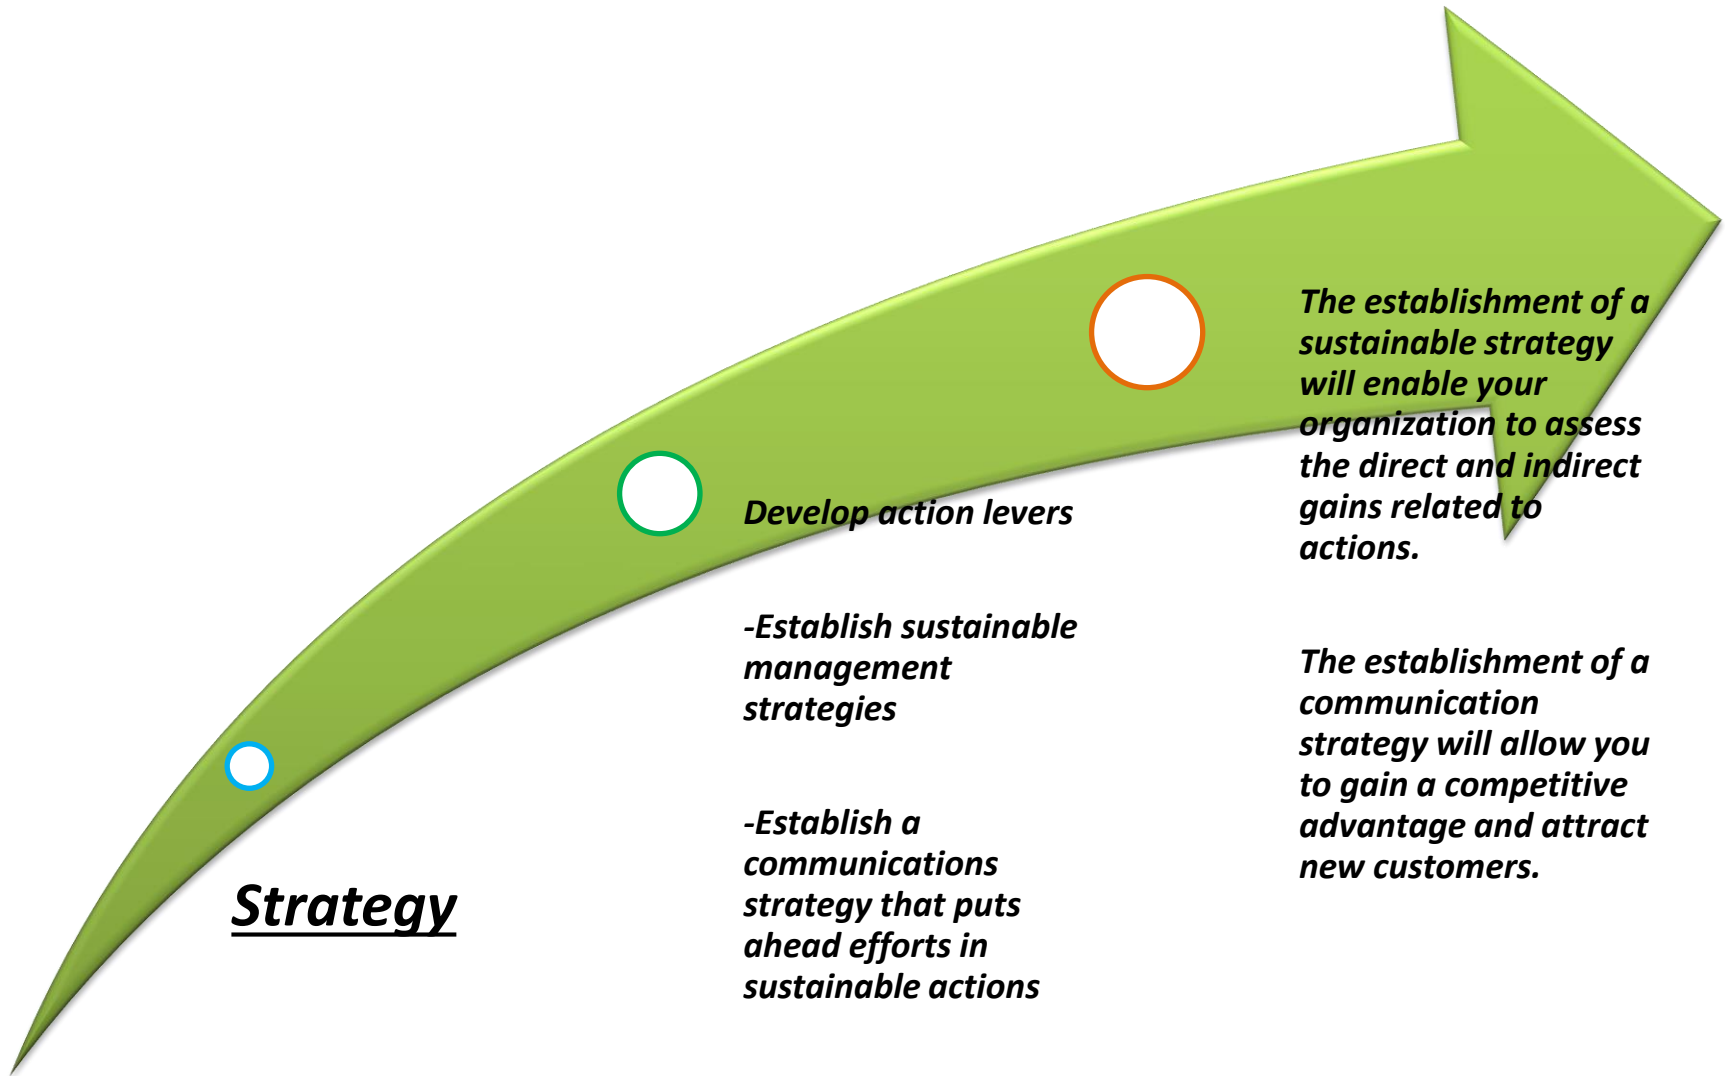

## **Diagnosis**

***Immersion in the different departments to prepare an environmental report of the management practices and structure of consumption.***

***This facilitates the identification of priority action areas.***

***Highlighting the points on which the structure will act to improve its environmental performance and economic***

# ***Our Approach***

# ***Our Approach***

***Support and Monitoring***

***Elementerre implements the strategies developed and ensure their efficiency and maintenance***
